The strength of the book is its clear explanation of the signal processing aspects, including mathematical descriptions of adaptive processing techniques, an area that has become a cornerstone for the effective operation of OTH radar. Versions upon versions of the anecdote exist, with the origins of most appearing to be, either directly or indirectly, in the account of the meeting given by Plutarch, whose actual historicity has also been questioned. However, what I've read recently suggests that people do paper over unpleasant experiences when they can -- PTSD happens when the experience is too disturbing for this making the past seem rosier.
